The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3 and 5-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over the combination of Henley et al '870, Bachrach et al and Murphy et al, as previously applied, and further in view of Usenko et al 6387829.

The rejection is maintained as stated in the office action mailed 5/4/05 and as stated below.

Henley et al '870, Bachrach et al and Murphy et al fail to disclose use of infrared light to cause the chemical bonding and hydro-cracking reaction. Henley et al '870 disclose use of radiation applied as "flood" to perform the controlled cleaving [0032].

Usenko et al discloses hydrogen implantation to form layer 110 in wafer 100, attaching the implanted surface to wafer 130 and use of infrared light flood radiation to cause splitting of the wafer 100 at the hydrogen implantation layer (preferred embodiment 3).

It would have been obvious to one of ordinary skill in the art to combine the teachings of Usenko et al with those of Henley et al '870, Bachrach et al and Murphy et al to enable the disclosed cleaving step using flood radiation to be performed according to the teachings of Usenko et al.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this

final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
